

# MucoClear® 6% Inhalation Solution Hypertonic Saline for mucus clearance

## The key features at a glance

- Customized for convenient and safe use with PARI nebulisers. Best performance with eFlow®rapid.
- Sterile – 4 ml ready to use ampoules<sup>1</sup>
- Mobile – easy to use everywhere

## Cochrane Review<sup>1</sup> recommends hypertonic saline solution (3–7%) for cystic fibrosis

- Evidence sufficient in support of safety and efficiency
- Well tolerated
- Fewer exacerbations – better quality of life
